This year our children and teachers have been collaborating with their sister classrooms to create beautiful works of art to be auctioned. The pieces they created are truly unique and representative of the topics they have been studying throughout the year. Classroom baskets and other silent auction items will also be for sale.

Proceeds from the sale of the children's classroom art go toward making your child's school experience a great one. Last years' funds were allocated toward the purchase of computers for teacher use in lesson planning, a lending library at the Clifton site and infant/toddler play equipment at the Clairmont site. The previous year we purchased new industrial food steamers for the kitchens at both schools. Please purchase tickets today for a wonderful night of food, fun, fellowship and shopping!
